

OPENHOUSE

IDEAS AND SOLUTIONS

12TH – 14TH JUNE 2018 | STAMA | SCHLIERBACH

HEAVY-DUTY MACHINING

Deploy highly dynamic and precise machining processes when handling difficult manufacturing tasks. The TWIN centers of the 31- and 38-series demonstrate how we define stability.

SHOWCASE | HEAVY-DUTY

When heavy-duty doesn't automatically mean large work-pieces. When heavy-duty cutting requires greater dynamics and precision. Ultimately, the aim is optimum performance density and output per square meter.

BEST PRACTICE | TWIN TURBO

Solid solutions equal better solutions. This is also true for turbocharger production in combination with mechatronic tools. Precise and secure for an outstanding boost in productivity.

MT TECHNOLOGY

STAMA has come of age, for 21 years we have created milestones with our STAMA Milling-Turning Centers and MT technology. Now, we have create another one.

PREVIEW | NEW MT 733

Today, complete machining is a successful turn-key technology across many sectors. Our vision has taken us another step further and now we are ready for a new milestone. Welcome to the preview of our new MT 733 series.

WORKSHOPS | KNOWLEDGE SHARING

Spend 20 minutes focusing on ideas, facts and solutions on the topics of milling and turning as well as complete machining, heavy-duty machining, drives, data and cross linking. Definitely exciting news!

ALWAYS THE BEST SOLUTION

Which strategies and production processes will help you maximize your quality, precision and productivity even further? To what extent can we boost our efficiency and flexibility through automation, cross linking and digitalization? CHIRON in Tuttlingen and STAMA in Schlierbach are opening their doors almost simultaneously. They are ready to present creative ideas and innovative solutions affiliated with workpieces, tools and machine tools.

You can look forward to the following highlights at the STAMA Open House 2018: The preview of the new MT 733, innovative best practice solutions in heavy-duty machining, workshops, showcases, our technology partners and our personal attention. We are looking forward to your visit!

Best regards, Your STAMA – the Turnkey Factory

IDEAS AND SOLUTIONS

12TH – 14TH JUNE 2018 | STAMA | SCHLIERBACH

WORKSHOP PROGRAM

TUESDAY 12TH JUNE

2:00 p.m. **Status quo: Multifunctional machines and insights into new, future-oriented complete machining solutions**

Dr. Guido Spachholz and Dr. Frank Müller | STAMA

2:20 p.m. **Quo vadis MT? Market trends and demands in the world of milling-turning complete machining**

Gerhard Ulmer and Michael Wurster | STAMA

2:40 p.m. **Solid solutions for turbocharger production in combination with mechatronic tools**

Gerfried Winkler STAMA | Frank Stadler KOMET Deutschland GmbH

WEDNESDAY 13TH JUNE

2:00 p.m. **Galaxie® – the new drive concept takes positioning precision and torsional rigidity to unknown heights**

Dr.-Ing. Tobias Röthlingshöfer | Wittenstein SE

2:20 p.m. **Solid solutions for turbocharger production in combination with mechatronic tools**

Gerfried Winkler STAMA | Frank Stadler KOMET Deutschland GmbH

2:40 p.m. **Process chain optimizing industrial identification**

Martin Kurz | Balluff GmbH

THURSDAY 14TH JUNE

2:00 p.m. **Quo vadis MT? Market trends and demands in the world of milling-turning complete machining**

Gerhard Ulmer and Michael Wurster | STAMA

2:20 p.m. **Process monitoring kicked up a notch**

Uwe Schröter | MCU GmbH

2:40 p.m. **Galaxie® – the new drive concept takes positioning precision and torsional rigidity to unknown heights**

Dr.-Ing. Tobias Röthlingshöfer | Wittenstein SE

TECHNOLOGY PARTNERS

STAMA is the Turnkey Factory – with our strong, experienced and competent partners, we create and deliver excellent solutions. Our local technology partners are:
